

Carafem Health Centers

Safe, supportive, understanding.

Carafem provides early abortion care with the abortion pill in a private, respectful, and comfortable environment. Check out our website carafem.org for more information or call us any time: 24 hours a day, 7 days a week.

The Carafem Experience Includes

- One on one care from your clinician: time focused on your needs means minimal waiting time and your appointment could last as little as 1 hour.
- Flexible hours including evenings and weekends for your convenience
- Small, private health centers that offer respectful and quality care

Additional Carafem Resources

- Accurate, comprehensive, easy to access information online and in person
- We can help you use private medical insurance or apply for a discounted rate if you qualify.
- Interactive education materials for learning about reproductive health including the full range of contraceptive options

About Us

We know that abortion is a common experience and that one in three women in the US will have an abortion in her lifetime. You are not alone. Each individual experiences an unintended pregnancy differently. We understand and can help. Carafem offers caring, compassionate and confidential support and is designed specifically for your comfort and peace of mind. We make safe abortion **accessible** with one hour appointments after work or on weekends; and **affordable** with the out-of-pocket cost at \$400.

Carafem specializes in providing the abortion pill. We listened to women who have said the abortion pill feels more private and allows them to feel more in control of their abortion experience. By specializing in providing the abortion pill, we are experts at providing you with the best medical care. Carafem provides you with information, support, and care to safely get your period back, allowing you to be better prepared for a pregnancy when the time is right. As you enter our centers, we meet you with respect and warmth to help guide you through your abortion experience.
